## MR. POTTER IS NO MORE.

DEATH OF THE GREAT RAILROAD MANAGER AT WASHINGTON.

His Wife and Son Were at the Bedside of the Last Scottish Chief When the Dark Angel Came—The Funeral Party Started for Washington To-Night—Full Particulars of a Well-Spent Life—Pay Announces Approximate.

Washington, D. C., March 9.—[Special.]—The world-famed railway financier and Vice-President and General Manager C. J. Potter of the Union Pacific has brought home from New York to Washington a ex-special car suffering from disease of the heart and the attendant complications. Despite the skill and hopes of the consulting physicians in Chicago and other cities to Washington, where it is expected the funeral will be held Tuesday. His wife, two private secretaries and the local physician, Dr. Purcell, accompanied him. Mr. Potter's death, occurred a few minutes after 1 o'clock this morning. From a well-known [illegible]

Chester A. Potter.

Dr. Hunt of the Case during the preceding twenty-four hours has not slept but little, but last evening he got some restful sleep and seemed to be in fine spirits. Toward the morning hours, however, a cold gave him his regular morning attack, and soon his heart began to weaken. Mrs. Potter, the family physician, Dr. Purcell, the family physician, Dr. Purcell, the family physician, Dr. Purcell

## WAYS JUDD TO REDUX.

### THE CONSERVATIVE WORK OF THE CLOSE OF CONGRESS CONTINUED.

Mr. Loring Opens a Contest in the Committee on Public Buildings—A Vote with the Audit—Appointing for Money for the Custom-offices in the Forty—An Event in Local Circles—Sending the Army Against Cuba—Reading Out Young.

WASHINGTON, D. C., March 1.—(Special.)—The Congress which Mr. Judd is eager to succeed as Commissioner of Pensions. Mr. Judd is an adherent to Judd, and he will oppose that vote especially to Mr. Loring, Commissioner of Chicago. This was done in the course of a private conversation, which has now leaked out. "I shall," the Commissioner is reported to have said to Mr. Loring, "use every support in Mr. Judd that I could in the administration of some extraordinary acts of his service."

"Do you mean me to say that an election from you?" asked Mr. Loring.

"No," said the Commissioner. "I do not want you to do that. Mr. Judd's terms is short that I would ask that you to any acts of voting from me, but you may depend it upon your duty, as Congressman, to cast before you."

Further concerned with the matter may lately that such a conversation took place between the President and Mr. Loring, but it is now the one that Mr. Cleveland the more than suggestion to Mr. Loring, during one of his Commissioner-Secretary has given such an intimation to Mr. Judd, and that would probably hesitate to do so. The fact that they have not acted to remove Mr. Judd the administration encouraged some others to in threatening the matter with himself in the attempt at a 4-0 court handling blows. Possibly he sets the experience that everything is all right, and that he may have given that service assistance has been made of that no interference would be tolerated. Possibly, however, he is making a fight for the committee to office. Frank Lester has been now over to his side, and efforts are now making to control the entire Committee delegation from Illinois to his behalf. This would have been one short to the absence of Mr. Throckmorton, who is now in Illinois on an electioneering tour. He will be back Monday morning, and Mueller or Prentiss to attend will be made to get all the Illinois members from Illinois to vote for Mr. Judd.

Mr. Loring, of Chicago, and his brother Pension Commissioner, Mr. Judd, are in a fight to the finish. Mr. Loring is a Democrat, and Mr. Judd is a Republican. Mr. Loring is a Democrat, and Mr. Judd is a Republican. Mr. Loring is a Democrat, and Mr. Judd is a Republican

## THE MEMORY OF THE DEAD

YOU may have observed how in time the effectiveness of paintings seems to fade, and the colors lose their brilliancy and tone. It is mainly the gradual accumulation of dust, so it is a very simple matter to restore them, with Ivorine Soap, clear water, just as it came from the factory, and a soft brush; scrub carefully, rub off first with a wet flannel and then with a dry one, and the colors will show up in all their original beauty. Never experiment with ordinary soap on a painting of value; you may destroy it. Ivorine Soap may be used with safety, for, as Prof. Cornwall, of Princeton says, "The Ivorine Soap is very well made, no greasy fats being left in it, while the alkali is thoroughly combined, so that it will not injure the most delicate article."

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory'"; they ARE NOT, but the all unscrupulous, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

## IT WAS NOT A MURDER.

**FINAL DEVELOPMENT OF THE SHELBY CASE IN NEW YORK.**

A Coroner's Jury Finds that the Famous Political Crime on the Fourth Accidental—Is Still Trying to Locate Death and Blame Anthony Comstock Society Members—Telegraph Editor in Custody—Special Dispatches from the Metropolis.

New York, March 6.—[Special.]—Even after the verdict of Coroner's jury there has been great interest as to the manner in which Albert Spellman met his death. Coroner Hoffman's jury has supposedly adjusted the blame in order to present the facts without prejudice. For men who handled guilty, but without the greatness of the three principal criminals, Thomas Shelby was the "Judas," Ray Foster and Hazel Williams, and a "gentleman of leisure," James Douglas, Douglas has skipped to Milwaukee, Ray to Philadelphia, while a search was that Hazel Inquiry is to have not known to Western ranch. They all, however, doubtless will subscribe to the facts in the case.

John Matthews was born Nov. 12, 1867, about 4 o'clock a. m., and a few hours after died in St. Vincent's Hospital. He was of excellent parentage, having had a seven-generation of the best blood in his veins.

John Matthews, to put delicately, schooled himself into and out of trouble. He was a constant visitor at the Tombs, having had a number of charges against him, and was in the office with the greatest familiarity. He was also well known to the police, and they had a kind word for him. He was a favorite of Deputy Warden Hogan, and Hogan had a kind word for Matthews's every action. He was a favorite of Deputy Warden Hogan, and Hogan had a kind word for Matthews's every action. He was a favorite of Deputy Warden Hogan, and Hogan had a kind word for Matthews's every action.

Matthews, to his officers' astonishment, showed the full effects of the drug. He was unable to walk without assistance, and was carried out of the courtroom by two officers and placed in a cell. He was then taken to the hospital, where he died at 4 o'clock a. m. The cause of death was given as heart failure

# THE CHICAGO EDISON CO.,
## 139 DEARBORN STREET.

Expect to be ready on or about MAY 15 to furnish both light and power from their Central Station on Adams Street, near La Salle, to parties desiring the same, within the following district:

HARRISON STREET ON THE SOUTH,
FRANKLIN STREET ON THE WEST,
STATE STREET ON THE EAST,
RANDOLPH STREET ON THE NORTH, BETWEEN FRANKLIN AND CLARK;
CLARK STREET, NORTH OF RANDOLPH TO LAKE STREET.

To those who need power, this will be a great convenience, as it can be carried to any floor of a building by wire, and by means of an electric motor placed where power is needed, avoiding expensive shafting, and also making it possible to sub-divide the power by means of additional motors just where it is needed. Power will be sold by contract on month per horse power.

This is an important matter to parties contemplating moving. Why not go to modern all buildings in the district available for manufacturing printing, etc., where power is needed, as it can be applied wherever steam, water or gas is now used.

The light will be sold by meter, and consumers pay only for the amount of light actually consumed. Those who desire to avoid themselves of the Edison Light should arrange with the Company to have their premises wired at once.

This light does not vitiate the air, is free from heat, absolutely safe, and is a beautiful light, and can be introduced in places where gas or oil cannot be used, and elegant effects can be produced by means of it, as shown in the various theatres and public buildings using it in this city.
